# NABSSAR Open Registration Application Checklist

Registration Information Page - <http://www.nabssar.org/registry.php>

Open Registration Application – How to Guide - [http://www.nabssar.org/open\\_registry\\_instructions.php](http://www.nabssar.org/open_registry_instructions.php)

Must be an active member (membership for the year registering has been completed). <http://www.nabssar.org/membership.php>

Check our breed standard. Does the sheep have any disqualifying faults? If so, it cannot be registered with us. It must also be at least 9 months old.  
Print Version - [http://www.nabssar.org/breed\\_standard.php](http://www.nabssar.org/breed_standard.php) Photo Version - [http://www.nabssar.org/breed\\_standard\\_with\\_photos.php](http://www.nabssar.org/breed_standard_with_photos.php)

The sheep must have the same ear tag in its ear listed on the OEBMSSR Certificate of Registration (CoR). The sheep must ALSO have an official ID tag (scrapie tag). If it does not, attach one of your assigned official federal ID tags (scrapie tag) but DO NOT remove the tag it was registered with if it was a farm tag.  
Two piece tags should be inserted with the female side (button) on the inside of the ear.  
This helps not only with retainability; but, in most instances, will result in the complete tag ID number (both flock ID and animal ID) being visible on the inside of the ear resulting in the head shot / ear tag photo requirement being easier to complete.

Applications will NOT be considered without a copy of the Certificate of Registration from the OEBMSSR; OR, the Application for Registration with the OEBMSSR filled out and signed by the seller.  
In addition, a copy of sheep applying SIRE and DAM's CoR, OR an official pedigree from the OEBMSSR with the color of the SIRE and the DAM must be submitted.  
Note: We do not accept BSSBA registered sheep.

Take a head shot / ear tag photo. What should they look like? Examples - [http://www.nabssar.org/ear\\_tag\\_photo\\_examples.php](http://www.nabssar.org/ear_tag_photo_examples.php)  
In addition, with the sheep standing squarely, take and submit a photo of the left, the right, the front, the back, and a height photo of the sheep.  
Examples - [http://www.nabssar.org/open\\_registry\\_instructions.php](http://www.nabssar.org/open_registry_instructions.php)

Fill out the Open Registration Application Form - [http://www.nabssar.org/forms/open\\_registry\\_app.pdf](http://www.nabssar.org/forms/open_registry_app.pdf) as well as the Work Order and Fee Schedule Form - [http://www.nabssar.org/forms/work\\_order\\_fee\\_schedule.pdf](http://www.nabssar.org/forms/work_order_fee_schedule.pdf). Include a copy of the genotyping results (RR, QR, or QQ) from the lab if you would like this information added to the sheep's record.

Print and mail everything to: NABSSAR – ORSC, c/o Jody Fuller, 17557 434<sup>th</sup> Ave, Clark, SD 57225  
Phone: 605-881-9649 E-mail: [lamb4u@itctel.com](mailto:lamb4u@itctel.com) Allow at least 4 to 6 weeks, plus mailing time for processing and receipt of your certificates.
